

Oxford YourStyle™ Custom Card Folio

Instructions For Items 50682 and 50683

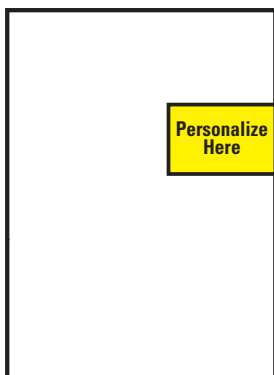

To create your personalized Custom Card Folio:

1. Remove backing from adhesive strips on front of folio.
2. Place standard size business card (3-1/2" x 2") on top of adhesive strips. Press down firmly. You're done!

Or, you can create new designs on the enclosed printable cards.

1. Go to **www.pendaflex.com** and select Templates. Use the on-line template and create your own design. Use your logo, your client's logo or any design you choose.
2. To print, insert the printable card sheet into your desktop printer following your printer's instructions. You may want to practice this on a plain piece of paper before printing on the printable card sheet.
3. After ink has dried, separate cards from sheet along perforated lines.
4. Remove backing from adhesive strips on front of folio.
5. Place card on top of adhesive strips. Press down firmly.

**Your personalized
Custom Card Folio
is now ready to use!**
